

3/13/20

Parents/Guardians:

All Aboard Charter School is closely monitoring the spread of the COVID-19 by staying in close communication with local health agencies such as the Arizona Department of Health Services. All Aboard staff is taking precautions on our campus to ensure a safe and healthy learning environment for our students, such as disinfecting learning environments, eating spaces, and shared spaces.

At this time, we have no known cases of the Coronavirus with students and staff on our campus. As a reminder a student with a fever above 100.0 should stay at home until they are fever free for 24-hours. Furthermore, frequent hand washing, avoiding close contact with those that are sick, and staying home when you are sick is highly recommended. If any student contracts a highly contagious virus or communicable disease, the Maricopa County Health Department will work closely and guide the impacted school district(s) on how to handle the situation.

We are committed to our students' academic success and health. We will continue to stay in contact with ADHS and we will continue to monitor COVID-19 updates.

We will keep you updated with any developments that could impact families or school by postings on website: [www.allaboardcharter.com](http://www.allaboardcharter.com), phone text, and answering machine at school (602)433-0500.
