

3/20/2020

Dear All Aboard Charter School (AACS) Families,

It has been communicated from the Arizona Department of Education that all schools close through April 12, 2020, while making every effort to provide continued education learning opportunities.

Please remember, at this time, there are no confirmed cases of COVID-19 affecting our school. In the best interest of the general community and after careful consideration of the health and safety of our student's families and staff the All Aboard Charter School Governing Board voted to provide continued education learning opportunities starting March 23, 2020 through April 12, 2020. To be clear, all students will remain off campus through April 12, 2020.

All Aboard Charter School is prepared to do this in the following ways:

March 16th – 22nd- Regular Scheduled Spring Break

March 23rd – until further notice – AACS is able to provide continued instruction during this time. Students will engage in off-campus online and remote learning along with other materials. Thank you for supporting AACS's efforts to keep our students, families, staff and general community safe and healthy. Continue to practice healthy habits at home and we will continue to update you as AACS continues to coordinate with State and local agencies.
